COVEZE® WG

envu

CARRY THE MARK OF A PRO.

Stay ahead of every pest. Make Coveze part of your Rotation Strategy.

Cockroach

Housefly

Bed Bug

Coveze is a residual insecticide with a different chemistry, made for your rotation programme.

COVEZE® WG

Why Coveze?

Professional Pest Management Starts with Planning Ahead.

Professional pest control depends on more than treating a problem once. It is about delivering reliable control, protecting customer trust, and staying ahead of recurring infestations. When the same chemistry is used on every job, pests gradually adapt to it, and control becomes less consistent. That is why modern **professional pest management** programmes are built on rotation.

Coveze is a different chemistry made for rotation, and it works well on its own for everyday jobs.

Why Professionals Choose Coveze?

Built for Rotation
A different chemistry designed to support long-term professional pest management programmes.

Long-Lasting Control
Keeps working long after application to support reliable performance.

Fast Knockdown
Acts quickly on target pests for visible control during treatment.

Monodose Convenience
One sachet. One tank. One job.
No measuring. No wastage.
No guesswork.

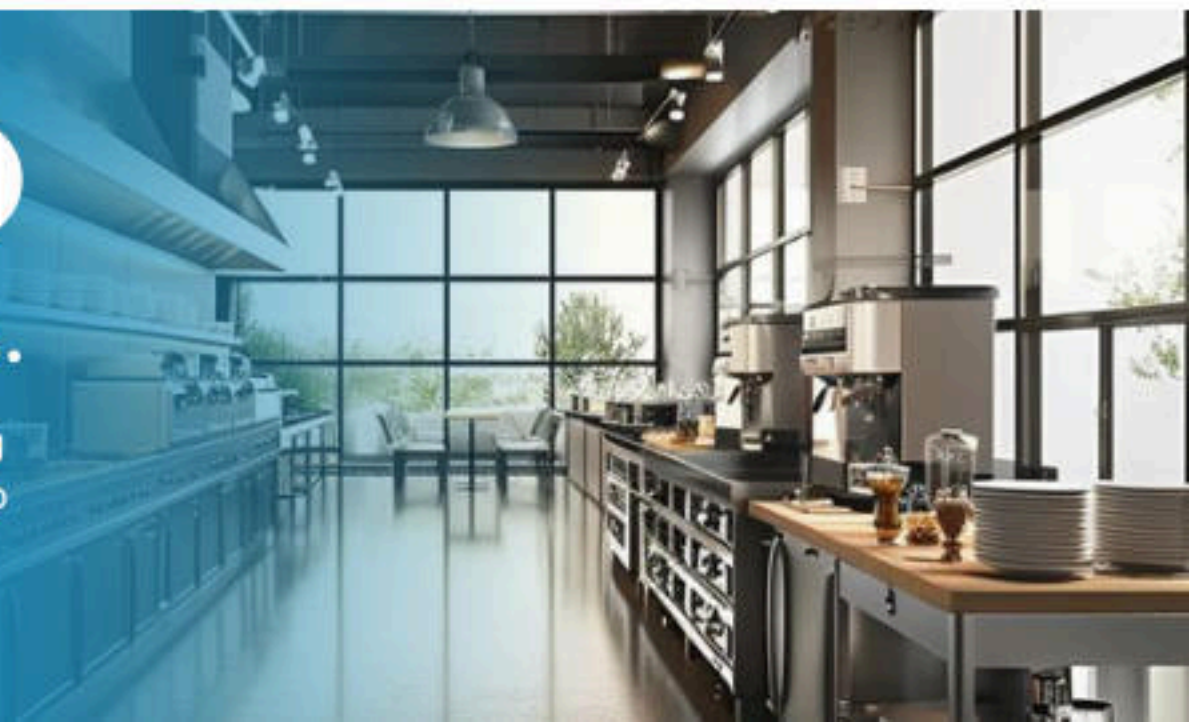
Clean Application
Colourless, odourless and non-staining formulation suitable for professional indoor & outdoor applications.

Broad-Spectrum
Kills a wide range of pests.

The Professional Standard

Kills a wide range of pests.

A professional programme is built on planning and rotation, using the right tools for each job



COVEZE® WG

Target Pests

Cockroaches

Ideal for commercial kitchens, food handling zones, cracks & crevices, plumbing lines, cabinets and hidden harbourages.

Bed Bugs

Designed for use around mattresses, bed frames, furniture joints, upholstery folds and room corners.

House Flies

Suitable for waste handling areas, drainage zones, garbage collection points and resting surfaces.

Easy Application

Step 1 : Fill the sprayer tank with 3.75 L of water

Step 2 : Add the entire 6 g sachet

Step 3 : Shake well and spray uniformly

Simple Dosing System

Application Guidance

Apply as a fine spray at 75 ml per square meter to areas where pests hide and rest.

Important:

Do not open the sachet by mouth. Cut it with scissors. Do not contaminate food, utensils, or food-contact surfaces during application. Always read the label and leaflet before use.

Recommended Areas:

1. Cracks & crevices
2. Under sinks
3. Behind refrigerators
4. Mattress seams
5. Bed frames
6. Furniture joints
7. Waste handling zones
8. Drainage areas

COVEZE® WG

Stay ahead of every pest. Make Coveze part of your Rotation Strategy
